

Jeng-Chug Chen

Department of Physics

National TsingHua University

Jeng-Chung Chen received his B.S. degree from National Central University, and M.S. degree from National Tsing-Hua University (NTHU), and his PhD degree in Physics from Purdue University in 2003. From 2004 to 2006 he worked at Tokyo University as a *postdoral* researcher. He is now an Associate Professor at the Department of Physics, NTHU. His research interests center on the transport properties of low-dimensional systems.
